The 10th Kingdom Sequel: The House of Wolves

In order not to confuse it to history as a fan fiction on the web host. I have copied it here.

https://www.angelfire.com/tv2/kingdomsequel/plot.html

Sequel Synopsis Simon Moore discussed the plot of the sequel in the September 2006 issue of the 10th Kingdom Official Fan Newsletter (not affiliated in any way with NBC, the network, what he had to say:

"The second adventure will be called 'House of Wolves', and take us primarily into the wooded world of Red Riding Hood's Kingdom, where schoolgirls in long, crimson caped uniforms are trained to deliver secret messages throughout the Kingdoms, risking their lives to travel through the dark, dangerous forests. The story begins in New York, some time after our previous adventure finished, and Virginia has opened their restaurant, which serves only meat of the wolf, and has become very successful. Virginia is now married to Tom, and they have a baby called Jacob. Tom has become pregnant for much, much longer than usual, and as this is the story begins, the baby will be a magical baby. When Virginia does finally give birth, it is to a furry baby wolf-cub!! Wolf is thrilled, but Virginia is most certainly not, and doesn't like the strange looks she gets when she walks down the street with Jacob and Manhattan in a pram. She is very upset and says she wants a human baby. Wolf promises to return to the Kingdoms with her and see if there is some magic spell that will turn their baby into a human child. Wolf, perhaps somehow has bewitched their baby - but who would do a thing like that?! They travel to Red Riding Hood's Kingdom, where wolves are demonized and forced to live in hidden underground villages deep in the forests. Wolf is shocked to see that girls at the Riding Hood Schoolhouse are being taught to hate wolves, and that Red Riding Hood herself is a fierce warrior princess and a teacher, politician telling anyone that he is a WOLF, all should hunt the world straight. As you can imagine, a WOLF at a girl's boarding school can quite a few problems... So many other things happen in our story, including Wolf discovering that his parents were not burned to death as he believed, but still alive! The story also features the magical, wicked Snow Kingdom and Queen Mother, and Virginia's Old friends will return... some as small as an Acorn. And there will be many surprises - such as the fact that the new Troll National Anthem sounds very much like a Bee Gees song. Oh and one thing I can certainly promise - there will be magic aplenty! Magic everywhere, in all it's wondrous forms. And there will be romance and hope and danger and adventures to take your breath away! And ..."

I wish this would have gotten off the ground!

NessRiver OP • 1y ago
Agreed! My original thought was to find out if a book series was ever made in place of the continuation of the film. Sadly, not.

Unclerussersame • 1y ago
Yeah, I watched the miniseries when I was a kid and rewatched it when I was older. Thought they never made one on the second book, and then found out about this. And the world part. I actually wanted to know more about the Red riding hood kingdom

P-Clio • 1y ago
I wrote a fan fiction in 8th grade (15 years ago) depicting what I thought a good 10th kingdom sequel would be. SLIGHTLY inspired by this post.. if I track the file down I will surely post it!

puravesdhoots • 1y ago
I need to read this

Emeryprofatuis • 1y ago
Did you ever find it lost?

Saladia0444 • 1y ago
So nothing?

No Picture 5489 • 1y ago
He wrote it in his head bro. It's lost forever. "Lost"

NessRiver OP • 1y ago
Sorry for the wall of text, it looked proper when I hit send. Then Reddit mangled it. And I don't seem to be allowed to edit my own post!

Oh well, its the content that counts!

Fey_Wrangler114 • 1y ago
My friend pestered and pestered and pestered me to watch this until I finally gave in and watched it.

And I'm hooked. My favorite line of the whole miniseries has GOT to be

"Are you a complete idiot?"

"No, that's me dad. Nah, me, I'm still a half-wit!"

I almost woke the whole dorm house up with my choked laughter. At 3 AM.

BreakAbility • 1y ago
Omg my favorite line from that episode was Wolf's exclamation to Virginia "When you said I was your husband, I went all hard and soft at the same time"

T.T That show pushed the boundaries of PG-13 for TV!

(Sorry for necro'ing this)

10 65 for the sequel.

be honest though I would love a new sequel. it has been a very long time and while I still hold hope in my heart that it might happen, my heart is a little sad that it hasn't. I don't know much about the rest of you but I literally grew up with this mini series and it has been my official favorite thing this whole time. now that I'm older though I plan on reading the books because I cannot be fact this empty feeling of not having more you know? you probably know, but at the same time I can't find out if there is a second book. which sucks. I'm hoping that there is a sequel to the book. I'm not sure if it's still coming out or what. this is one of the rare cases where the movie production did the book justice, and we all know how rare that is! this little spin-off honestly sounds super cute and I would 100% read/watch it!

NessRiver OP • 1y ago
Yeah - I think this is one of those -- book would come out after the screenplay was put up on the screen. Much like the sequel of Princess Bride. It is based on an Italian court, but the family that is holding it, did release the first two chapters -- I think it was called "Buttercup's Baby".

But hey... it seem to be the trend that sequels are being made 20-30 years later! Not sure how they could ever recast Andie though.

IvalaroomandBeeMan • 1y ago
Andre the Giant can be replaced by The Big show as his son

KingoftheMark • 1y ago
Buttercup's Baby is just a joke, not a real book. There's nothing tied up in an Italian court. The whole thing with The Princess Bride being the "good parts version" abridged by William Goldman is just a storytelling conceit. The story is written by William Goldman, not just abridged by him

NessRiver OP • 1y ago
Ah, I had no idea that it was just a smoke screen.

Even if it were real, for PB, it would be impossible to get the "feel" back to do the sequel. No one is going to replace actors that are not here anymore.

Thank you for the info!

Altruistic-Cap-5214 • 1y ago
I would love for Scott Cohen make a sequel of this movie and if this is available in book format!

HopeTate48 • 1y ago
Only just rewatched the whole mini series over Christmas starring Alma Eve ending yesterday. If only there had been a sequel. Loved rewatching it as an adult, I think I'll rewatch Tin Man over next year.

MindyMelone62 • 1y ago
I need a new mini series! Who/what to we do to get this moving to someone that would make this happen. Could you imagine this mini series redone in 2022. Like come on! This movie remade would sell big time!!!!

TheOriginOfOlah • 1y ago
How disappointing that we never got the sequel we yearned for back then. Of course now that the actors are older, it's far too late to continue Virginia and Wolf's story as sad as that is to say/type. Still sigh "youthening" effects, we may be able to get some of the original cast flashbacks perhaps leveling to the youthening around their kids.

Or the story's original creator could just write a book. It's been 23 years, I was hoping there might've been a sequel to book form. I guess we all have to just settle for the synopsis. =(

NessRiver OP • 1y ago
Agreed, the above story line is a stretch...

But, what if the 10 Kingdoms did go on 23 years. And the story of Wolf and Virginia were was folded into the folklore of the Kingdoms. Pieces of it could be told along a new Journey taken by Virginia's oldest daughter, who is also having her own adventure into the long lost 10th Kingdom that Virginia and Wolf, discovered but barely escaped with their lives.

Of course, their ambitious and curious oldest daughter is about to find a bread crumb in her kingdom that leads her directly to the 10th. A mystery that we can refuse.

With a cameo or two thrown in for fun. :)

I wonder how closely he will stick to his Sequel thoughts from nearly 20 years ago. Certainly will grab that book if it comes out. Would love it even more if he can get it narrated and made into an audio book. =)

DarkLionElial • 1y ago
Is this real? Just finished the mini series yet again. And still so upset no sequel.

I dont know though, I think it would be fairly manageable to be like "heres Warren Wolfman and Virginia with grandmaloon -- or even elderly versions" they could reminisce this script and just age the characters by a decade, give or take. They would certainly have to bring a new host of characters and create a fresh dynamic revolving around them but I think it could be done. Especially with the original cast on the director and writers too. And their roles are the same as they were when creating the original masterpiece. Would they get it right? Or recreate that SAME magical feeling in the cinematography? Hard to say. George Lucas couldn't repeat his magic thrice (hardly twice)

LaughsPreventedAB • 1y ago
Here I am in 2024 seeing this post after googling "what would have happened in a 10th Kingdom sequel?" This sounds really fun... I am upset it's still not out because I'm pretty much modernize it and take away the schoolgirl aspect and make them like badass ninjas or something. I just watched the first season again on Amazon and man it was fun seeing it again. I forgot I was a Giffregan for another season. I feel slapped in the face... sigh.

Aggravating_Catch_38 • 1y ago
Simon movie (writer of the 10th kingdom) confirmed today in a video on the 10th kindom fan page on fb) that the sequel has been written (book) and will be released soon! Called big bad wolf. He also read the first chapter. Pretty exciting

Just finished watching this series for the first time. It was a really fun watch. It's a silly show but man did it have potential. Kimberly Williams-Paisley was great as Virginia and I'm sure the small movie she's been in Scott Cohen's from Gilmore Girls and it was such a pleasure to see him showcase his talents. It was a really great cast with tons to work with. Wish it got a different chance to take off.

If Willow can get a sequel so can The 10th Kingdom. We need to keep fighting and petitioning.

Odd_Lackluster6878 • 1y ago
I agree they should have done a sequel since Virginia said the end of the first chapter of the 10th kingdom

Or something along the lines of that, so I don't understand why the would say that if it wasn't a hint for another film season 2.

All the actors are still alive and are actually down to doing a sequel even after all these years so it can't see why it will never get done I mean yeah it didn't get the viewers apparently in America but it did in the UK so come on why not do a sequel

But also now they can remake it into a proper series and not just a miniseries since they could have told loads of stories. And if it got remake they could tell stories between stories

In my opinion season 2 would be that Virginia and wolf have the child and that child is part wolf and a new threat is threatening all the kingdoms including the 10th kingdom and it's upto Virginia and wolf and their son Jacob and their new late characters to stop the threat to save the kingdoms or lose them forever, and then Virginia and wolf end up losing their son Jacob to the evil being wood when she gets back to new York, losing her father, wolf and their son forever. Leading to season 3

Why doesn't Disney buy the rights and make a series out of it

oscarjhuert • 1y ago
What a great book it could have been... to me it deserves a sequel even in text 😍😍😍😍😍 I would've loved to own it

Every few yrs I look into this to see if anything has changed. Still nothing.

There was some recent chatter about a book with the 2nd part of this story...

Apr 10, 2020: "Big Bad Wolf: A 10th Kingdom Fairytale" (2020) by Simon Moore The second book of "The 10th Kingdom" February 27, 2021

Celebrating 21 years of magic! ✨ Get ready to journey back into the world of "The 10th Kingdom"!

To mark the 25th anniversary of "The 10th Kingdom," Emmy-winning screenwriter and author Simon Moore shares that after years of struggles with rights ownership, he has finally written a sequel book titled "Big Bad Wolf: A 10th Kingdom Fairytale" (2020), spanning 453 pages, serves as both a continuation of the story and a potential blueprint for a future TV adaptation.

As part of the celebration, Moore has made the first chapter, introducing new and returning characters, including Wolf and Virginia's daughter, Arcadia, who is restless and unknowingly about to embark on a life-changing adventure s magic. Interestingly enough — the same one her father had searched for years ago — leaving New York behind.

Simon Moore concludes with expressing deep appreciation for fans who have kept the story alive across generations. He notes that publishing the book may take time but promises to keep fans updated. The hope is that success with the book will help push forward efforts to create a new TV mini-series.

I just watched the series too, this is one of my favorite movies of all time. Hope there is a series 1 day. But then again can so few ever get enough time and probably want it to always be a series forever just cause we love it that much. Either way still one of the bests. Modern fairytale ❤️

Sqyn_1111777 • 1y ago
mini series arent movies

No Picture 5489 • 1y ago
It's still a film. Movie = Moving pictures i.e. a piece of cinematography. Mini-series = A longer rendition of a film (or movie) generally made for TV. So...yes it can be ascribed to the defining features of a "Movie"

Sqyn_1111777 • 1y ago
The darker aspects with modern effects would be terrifying.

No Picture 5489 • 1y ago
Sadly it never will be I fear. But I would engage in my very position at first light whence I catch wind of this coming upon nigh time

I hope it gets a reboot, like so many shows have. There is so much material to work with.

Season 1 Season 2 ... Season 8

Amazon Prime are you listening?

Flamemonster-Comic • 1y ago
They kind of did do a story like this with "Once upon a time", but it was waaaaaaay too soap opera based. And the main character is literally always crying. Every. Single. Episode.

Agreed that the original actors are too old to pull off the original roles.

It would have to be cameos as story depth for a new cast of characters.

And... the series can't spend the first hour in New York after advertising for months that we were returning to the land of fairy tales. People dumped out of the first hour of the series never to return according to Nielson ratings. NBC almost didn't run the rest of the week due to poor ratings.

No Picture 5489 • 1y ago
Lyrical... yet are you talking about bud. They've been recreating renditions of these fairy tales for the last 2 decades since 10th Kingdom released. All they'd have to do is throw a few "brothers and sisters" in there, maybe Elliot Page for good measure and they're golden
